

Book by Dr. Olinda Timms, published by Elsevier titled
'Biomedical Ethics'

Addressing a pressing need in a rapidly changing healthcare environment, this resource book on medical ethics will be particularly relevant to young doctors and medical students exposed to a medical ethics course for the first time or those who would like to explore this area on their own. The topics include Doctor-Patient Relationship, Research Ethics, Emerging New Technologies, Public Health Ethics, Medical Errors and Medical Professional and Society. These are contextualized to an Indian setting and refer to Principles and Codes of Medical Ethics including the Indian Medical Council (Professional Conduct, Etiquette and Ethics) Regulations 2002 and other regulations wherever relevant.

Medical ethics in Indian setting, provided in a simple lucid manner

KEY FEATURES

- Each chapter focuses on a single area in a simple narrative
- Illustrative case reports and case studies of ethical dilemmas are provided with points for reflection/discussion
- In step with the curriculum in medical ethics already established in several medical colleges
- The chapters can be used to develop modules in a medical ethics program
- Additional resources (titles of relevant films, readings and references) are provided

Biomedical Ethics

Author Information

By **Olinda Timms**, MBBS, DA, PGDMLE, PGD Bioethics, is an alumnus of Christian Medical College, Vellore, and has worked as Consultant Anesthesiologist in Bangalore since 1987.

Her interest in the field of Medical Ethics led to a Post Graduate Diploma in Medical Law and Ethics from the National Law School of India University, Bangalore, and a Post Graduate Diploma in Bioethics from Indian Council of Medical Research. Since then she has been teaching and writing on Medical Ethics and has many publications to her credit on this subject.

She has written the curriculum on Medical Ethics for the IGNOU B.Sc. course in Allied Health Sciences and is external faculty at CMC Vellore for Research Ethics.

Dr Timms serves on the Institutional Ethics Committee of St Martha's Hospital, Bangalore, and Bangalore Baptist Hospital and is adjunct faculty at the Department of Health and Humanities, St Johns Research Institute, Bangalore.

Book Description

Addressing a pressing need in a rapidly changing health care environment, this resource book on medical ethics will be particularly relevant to young doctors and medical students exposed to a medical ethics course for the first time or those who would like to explore this area on their own. The topics include Doctor–Patient Relationship, Research Ethics, Emerging New Technologies, Public Health Ethics, Medical Errors and Medical Professional and Society. These are contextualized to an Indian setting and refer to Principles and Codes of Medical Ethics including the Indian Medical Council (Professional Conduct, Etiquette and Ethics) Regulations 2002 and other regulations wherever relevant.
